## SUSIEE PARTNERS

## CONTEXT & NEEDS

The EU Bauhaus Initiative highlights promoting **sustainability and inclusivity from an early age**. In 2022, the GreenComp initiative defined sustainability as a crucial skill for learners and educators, leading to the creation of the SUSIEE project to address these needs.

## OBJECTIVES

### QUALITY FRAMEWORK

Revise the current EU quality framework for 0-3 ECEC from a sustainability (GreenComp) and interculturality perspective.

### INTERCULTURAL & SUSTAINABLE CHANGE IN 0-3 ECEC

- providing training and support to ECEC staff;
- fostering access of children and supporting families (particularly those from migrant or ethnic minority background);
- developing curricula

### CROSS-SECTOR SYNERGIES

Increase quality in Early Childhood Education by creating cross-sector synergies and building transnational capacity of organisations inside and outside the SUSIEE partnership.

## TARGET GROUPS

- ★ Professional **staff** working with 0-3 children
- ★ **Families** with children 0-3
- ★ **Health workers** and **social workers** related to ECEC
- ★ **Organisations** related to ECEC

In contexts of high presence of migrant and ethnic minority families.

## METHODOLOGY

One of the aims of this project is to develop the Susiee Method, considering **Positive Parenting and Ethnopediatric** as relevant ECEC approaches.

We will bring together disciplines with an intersectional and community focus like:

- **Theatre of the Oppressed,**
- **Process Oriented Psychology,**
- **Digital Theatre** and
- **The Work That Reconnects,**

in dialog with methodologies focused on inclusion and conflict resolution like **Identity Theory** and **Critical Incident** methodology.
